THE CONCEPT

Looking to the future, Alina Tsolakakis revived one of her best concepts: a low budget hotel built on a privileged spot that is prepared to satisfy all demands.

THE REALIZATION

Aqua Vatos Paros lies close to the port and beach, making the hotel ideal for exploring. Alina Tsolakakis renovated this hotel, combining traditional architecture with modern elements. Strong colors outline classical colors to invoke a playful holiday atmosphere and the essence of the Greek summer. Positive messages hang on room walls, inviting guests to free their mind from their daily concerns.
