## **PROJECT: AVIANTO SUITES**

***Concept & Brand Development by Alina Tsolakakis***

Five suites with unique views of the volcano, Thirassia and the caldera, whitewashed surfaces that reflect the sun's rays and modern decor make up the unique character of Avianto Suites which sits peering over Imerovigli.

## QUICK FACTS

### Avianto Suites

Imerovigli, Santorini

**Concept & Brand Development**  
by Alina Tsolakakis

**Number of rooms:** 5

**Period of operation:** April-October

**Project duration:** 6 months

**Project materialisation:** 3 months

## THE CONCEPT

Avianto Suites is located in Imerovigli, one of the most spectacular spots in Santorini and is composed of five suites, which inspired Alina Tsolakakis to develop a hotel that would reflect the beauty of the Aegean with a scattering of romantic elements inspired by the colours of the famous Santorini sunsets.

## THE REALISATION

Shades of red reflecting the volcanic nature of the island and the golden hues of the Greek sun play a leading role in the colour palette of each room, disseminating

Santorini's vibrant energy into every corner. Airy fabrics create a 'sky' above each bed to add a romantic tone while the mosaic bathrooms enhance the feeling of luxury and the minimal aesthetics provide an interesting contrast to some of the classic touches. The private verandas are characterised by their mesmerising views of the endless blue that create the ideal backdrop for a romantic dinner for two. The same can be said of the stone built Jacuzzis, which elevate the ambience even further. The personalised services complete the scene that inspired Alina Tsolakakis to create a hotel with a special identity in one of the most impressive villages in Santorini.
